TODO PARA EL VINO

"This Merlot series, which we have been manufacturing for over 20 years, has undergone some changes that we believe will be beneficial. These changes involve the elimination of larger models, modifications to the assembly process, and a reduction in depth from 42cm to 39cm.

To maintain the series' functionality and appeal, we have developed a top and a base that allow for various combinations with 2, 3, 4, and 5 columns, and with 2, 3, 4, and 5 heights.

Nuts have been inserted into the top and base, onto which the modules are fixed using a special screw included with each model.

In this catalog, you will find several examples of the multiple combinations possible.

We hope these changes will help improve the offer to your customers."
